

6th Grade Online Activities - 4/6 - 4/10

Over the next few weeks, we would ask our Intermediate students to continue working on any outstanding assignments or projects. In addition, we want to provide a general recommendation of learning time for each day along with some useful links. The goal over the next two weeks is to help our students stay engaged with learning and provide some online resources. We would recommend each student spend 20-30 minutes daily for each core subjects: Reading, Writing, Math, Science, and Social Studies. We have provided a variety of links below for all middle school departments to help you structure some time over the next two weeks.

6th Grade

	Links	Teacher Explanation
Reading	https://www.readworks.org/ MobyMax Storyworks Epic! http://parksrangers.weebly.com/	Starting March 30th there will be 3 different reading and question sets through Readworks available for you. Mrs. Parks Weebly site has a variety of games to enhance reading skills. MobyMax is an online resource that helps with reading skills. We recommend spending 10 minutes a day on MobyMax.
	https://eubanksbulldogs.weebly.com/	
Language	MobyMax/Grammar Practice	Students can choose to work on any language content area (colored red), such as language, spelling, writing workshop, etc., to keep their language skills sharp. Khan Academy offers a grammar course that students can work their way through. We recommend spending 10 minutes a day on MobyMax or Khan Academy. (No required topic number. Just practice!)
	MobyMax Khan Academy	
	Daily Writing	StoryBoard allows you to create your own comic strip style story or graphic novel. My Story Book allows you to write your own picture book. You can write a new story each day, write one story and add to it each day, or a combination of both. The choice is yours! (You'll have to make an account to save your stories. For StoryBoard, choose login through Google. For My Story Book, just click menu, sign in, sign up and then follow the prompts.
	StoryBoard My Story Book	
Math	Canvas Khan Academy Worksheets - Adding, Subtracting, Multiplying Fractions Check your worksheet answers...how well did you do?	Student can log into Canvas and choose from two different models. Module one has several links to a variety of math games (a great way to get students to practice and engage with math!). The second module called, "Mastery Challenge", has different math videos, practice, etc on topics covered in 6th grade. Students could also choose to practice on Khan Academy. We recommend spending NO MORE than 20-30 min on math a day. (Please remember, none of these activities are required-- they are just for practice. They do not need to be turned in and will NOT be graded.)

Science	https://app.acceleratelearning.com/	Also click on the link link here. It will continue to grow as your Science Teachers add to it. If you come across a good science link, share it with your science teacher and we may add it to our list to share with others. REMEMBER, ALL OF YOUR TEACHER ASSIGNED ACTIVITIES ARE IN CANVAS. https://docs.google.com/document/d/1pFeGB_Fuv3po88MvYFSkml3rfQ8HBsLxl0k23HFGDDQ/edit?usp=sharing
	Canvas	
	https://www.dogonews.com/category/science	
Social Studies	News Shows	Keep updated on what's going on "out there". Watch/listen to daily news videos/podcasts (written and produced for students) to keep up-to-date on what's happening around the world. Journal about what's going on and your thoughts.
	CNN	
	Social Studies	Beginning March 30th enrichment, review, and NON-GRADED activities will be posted in Canvas in your social studies dashboard. Mrs. Fite's Weebly page has a variety of additional resources (videos, games, activities) to enhance your online social studies learning experience.
	ConnectEd	
	Flocabulary	
	http://fiteuniversity.weebly.com/	
<u>Other Enrichment Activities To Try</u>		
Art	Learn	NGAkids interactives offer an entertaining and informative introduction to art and art history and features a variety of art-making tools that encourage exploration and creativity.
	Do	After learning about art history and playing with online tools, take some time to create on your own. Think about the variety of art mediums and create! Consider mixing mediums to enhance your art. Kinderart provides some ideas for projects.
PE	Warm Up	Use YouTube to find great work out options. Be sure to warm up and cool down!
	Just Dance	
	Yoga	
Music	Disney Sing Along	Sing! Here is a whole list of Disney (approved) sing along videos!
Drama	Improv	Practice your improv skills with these scenarios.
FACS	Laundry	
	Food for the Family	
Technology/Fun	Typing	-Set up a time to Nitrotype with your friends online! We may be socially distancing ourselves, but we don't have to socially isolate ourselves. -Work through some fun coding activities created for Code.org
	Coding	
	FreeRice	Free Rice has a variety of subjects (math, science, languages, art, etc) that your can use to practice skills while providing rice for third-world countries.
	DuoLingo	Duolingo has many languages to practice!
