

ACCOUNTING

DO YOU LOVE WORKING WITH NUMBERS?

Associate of Applied Science Business - Accounting Option

Behind every great business is an accountant keeping the organization fiscally responsible and on the road to success. For those who are interested in the specialized knowledge and working applications of accounting principles, this program is for you! This program is designed to help prepare you for work in entry-level accounting positions in a number of different industries and organizations. The demand for skilled Accounting professionals in the workforce continues to increase as employers seek individuals with strong skills and financial competencies. Crowder College will prepare you to meet their needs and take your place as a valued employee. Upon completion of the AAS Business - Accounting degree program, you will be prepared to sit for the professional certification in bookkeeping sponsored by the American Institute of Professional Bookkeepers (AIPB).

WHY CROWDER?

- Small class sizes and low student-to-teacher ratio
- Personalized care from credentialed instructors
- Courses available online, in-person, day & evening
- Degree may be obtained entirely online
- Significantly reduce the cost of your education
- Gain experience through an internship
