In Pre-Algebra I Can. . .

- Describe numbers that are rational and approximate them by rational numbers.
- Analyze and solve linear equations and pairs of linear equations.
- Understand the connections between proportional relationships, lines, and linear equations.
- Define, evaluate, and compare functions.
- Understand congruence and similarity using physical models, transparencies, or geometry software.
- Solve real-world and mathematical problems involving volume of cylinders, cones, and spheres.
- Investigate patterns of association in bivariate data.
