- 5. Discussion of next steps and resources.
- 6. Adjournment.

Kindergarten - Grade 12 Health and PE Nutrition Education Standards

- <u>Kindergarten</u>: Identify behaviors that keep a person healthy (e.g., physical activity, sleep, good nutrition, clothing, hygiene).
- <u>1st Grade</u>: Show the cause and effect of healthy behaviors (e.g., physical activity, sleep, good nutrition, clothing, hygiene).
- <u>2nd Grade</u>: Identify the basic parts of the Nutrition Facts label (e.g., serving size, fat, sugar, ingredients).
- <u>3rd Grade</u>: Explain the importance of nutrition facts on food labels in making healthy selections (e.g., serving size, calories, nutrients, ingredients).
- <u>4th Grade</u>: Identify food choice and how it relates to a healthy lifestyle (e.g., fruits, protein, dairy, energy-in, energy-out).
- <u>5th Grade</u>:
 - Examine food labels to determine calories and nutrients in a product (e.g., compare nutritional value and ingredients of two product labels).
 - Create a personal health plan that includes balanced nutrition, physical activity, hygiene, adequate sleep, no alcohol, healthy snacking.
- <u>6th Grade</u>: Standards related to nutrition education need to be added to the curriculum.
- <u>7th and 8th Grade</u>:
 - Analyze and critique food labeling information to determine calories, nutrients, serving size, types of ingredients and nutritional value in a product.
 - Apply nutrition knowledge to compare the nutrient contribution of a food to its energy contribution.
 - Evaluate factors that influence food choices (e.g., culture, family, emotions, peers, media) and their impact on nutrition and health.
- <u>9th 12th Grade</u>:
 - Design a nutritional plan and fitness program based on the relationship between food intake and activity level with regard to weight management and healthy living (e.g., caloric intake, calorie expenditure, weight gain, weight maintenance, and safe weight loss).
 - Assess how nutritional needs change throughout the life cycle.
 - Apply concepts using food labels to meet dietary needs of individuals for a healthy lifestyle (e.g., diabetes, lactose intolerance, food allergies).
